A post-doctoral research fellowship position at the Translational Autoinflammatory Disease section in NIAMS is currently available. Applicants with a PhD in the field of autoinflammatory disease and/or innate immunity are encouraged to send their CV to Dr. Goldbach-Mansky at goldbach-mansky@niaid.nih.gov.

Keystone Symposia Fellows Program

The Keystone Symposia Fellows Program allows sharing with established scientists applicant views on the challenges faced by early career scientists and underrepresented scientists in particular.

NIAID Career Opportunities

A talented and diverse workforce is one of NIAID's greatest assets, and we seek qualified candidates to help us make a difference in the lives of millions around the world.

ARTICLES OF INTEREST AND OTHER UPDATES

The Hydrologic Sciences Program focuses on the fluxes of water in the environment that constitute the water cycle as well as the mass and energy transport function of water. The Program supports studying processes from rainfall to runoff to infiltration and streamflow; evaporation and transpiration; as well as the processes that result in ground water recharge and the transport of solutes and sediments.

The Committee on Microbiological Issues Impacting Minorities Salutes Dr. Michele Nishiguchi for Outstanding Contributions to the Field of Microbiology

The 101 sessions, 14 workshops, and 1,800 abstracts that make up ICAAC 2013 offer a unique opportunity for the world's most renowned scientists to come together to discuss and advance understanding of the latest scientific advances in infectious disease. The conference is co-located with ASM's Annual Meeting, which includes the 18th International Conference on AIDS (ICAAC/ASM 2013).

Breakfast on Tuesday, May 21 from 8:00 – 10:00 a.m. in room Centennial Ballroom F at the Hyatt Regency. The Mentoring Breakfast will offer students, postdoctoral fellows, and other early career scientists the opportunity to discuss career development issues and networking strategies. The panelists will provide insights into the challenges and rewards of building a career in the field of infectious disease.
